### Conferences

1. Kalyankar, Sreeja et al. (2025). “Seismic Fault Detection on Raniganj Data using Deep Learning”. In: Beneath the Surface: Innovations in Geoscience. Hyderabad, India (18-20 June): Society of Exploration Geophysicist.
2. Kumar, Pankaj, K.Satish Kumar, et al. (2025). “Mapping a sedimentary sub-basin in the eastern Raniganj Basin, India using geophysical data: A potential site for CO<sub>2</sub> sequestration”. In: Beneath the Surface: Innovations in Geoscience. Hyderabad, India (18-20 June): Society of Exploration Geophysicist.
3. Lalngaihawma, Joseph et al. (2025). “Seismic fault identification using a hybrid ResNet-UNet architecture”. In: International Meeting for Applied Geoscience & Energy (IMAGE). Houston, Texas, USA (25-28 Aug): Society of Exploration Geophysicists and American Association of Petroleum Geologists.
4. Zia, Saquib, Ajay Malkoti, and Nimisha Vedanti (2025a). “Efficient monitoring of a geological carbon sequestration process through accelerated poroviscoelastic wave modeling with Convolutional-PML boundary conditions”. In: International Meeting for Applied Geoscience & Energy (IMAGE), Houston, Texas, USA (25-28 Aug): Society of Exploration Geophysicist.
5. — (2025b). “Poro-viscoelastic simulation and its application for seismic CO<sub>2</sub> monitoring in the Gandhar oilfield, India”. In: Beneath the Surface: Innovations in Geoscience. Hyderabad, India (18-20 June): Society of Exploration Geophysicist.

6. Kumar, Pankaj, N.A. George, et al. (2024). "Structural model of coal-bearing Raniganj Formation derived from petrophysical data in the Raniganj (E) block, India". In: National Conference on Rock Deformation and Structures (RDS). IISER Bhopal (22-24 October).
7. Kumar, Pankaj, Ajay Malkoti, and Nimisha Vedanti (2024). "Geological sequestration of the CO<sub>2</sub> in the potential coal seams from the Raniganj basin". In: Role of Geosciences in Carbon Storage. Mumbai, India (19-21 March): Society of Exploration Geophysicist.
8. Singh, Srishti et al. (2024). "Application of fractional Gaussian fractal-based stochastic seismic inversion to F3-Netherland dataset". In: Fourth International Meeting for Applied Geoscience & Energy. Houston, Texas (26-29 Aug): Society of Exploration Geophysicists and American Association of Petroleum Geologists, pp. 109–113. DOI: 10.1190/image2024-4100573.1.
9. Vadapalli, Uma and Ajay Malkoti (2024). "Challenges in permeability prediction concerning geological carbon sequestration: A case study from Ankleshwar oil field, India". In: Role of Geoscience in Carbon Storage. Mumbai, India (19-21 March): Society of Exploation Geophysicist.
10. Malkoti, Ajay and Nimisha Vedanti (2023). "Application of Seismic Exploration Techniques in Exploration of Unconventional Hydrocarbons and CCS projects". In: International Conference on Petroleum, Hydrogen and Decarbonization. IIT Guwahati, Assam, India (3-5 Nov).
11. Malkoti, Ajay, Shravan M. Hanasoge, and Rene Edouard Plessix (2022). "Upscaling acoustic wave equation using renormalization group theory". In: *Second International Meeting for Applied Geoscience & Energy*. Second International Meeting for Applied Geoscience & Energy. Houston, Texas (28 Aug - 1 Sept): Society of Exploration Geophysicists and American Association of Petroleum Geologists, pp. 2507–2511. DOI: 10.1190/image2022-3744890.1.
12. Malkoti, Ajay, Arjun Datta, and SM Hanasoge (2020). "H/V amplitude ratio measurement using multicomponent ambient noise cross-correlations and its relationship to Vp/Vs." In: *AGU Fall Meeting 2020*. AGU Fall Meeting 2020. Online.
13. Malkoti, Ajay and Nimisha Vedanti (2019). "Efficient seismic simulation for a highly attenuating media," in: *International Union of Geodesy and Geophysics 27th General assembly*. International Union of Geodesy and Geophysics 27th General assembly. Montreal, Canada.
14. Vedanti, Nimisha and Ajay Malkoti (2019a). "Petrophysical characterization of two formations of Deccan flood basalt for improved sub-basalt imaging". In: *International Union of Geodesy and Geophysics 27th General assembly*. International Union of Geodesy and Geophysics 27th General assembly. Montreal, Canada.
